

Revision of Existing Health PEI Protocol/Medical Directive Checklist

Prior to completing the below form, review the *Health PEI Protocols Policy* for requirements. All Health PEI Protocols being developed and/or reviewed will be considered provincial in nature. If the Health PEI Protocol is remaining site-specific the rationale is required below. Decisions on site-specific Health PEI Protocols will be made in partnership with the Provincial Medical Advisory Committee (PMAC), Provincial Drugs & Therapeutics (PD&T) Committee and Manager of Professional Practice and Clinical Policy.

Title:
Are there any existing Health PEI policy documents, Health PEI Protocols/Medical Directives related to this Health PEI Protocol? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, please list below:
If this current Health PEI Protocol/Medical Directive isn't provincial, will it be? <input type="checkbox"/> Yes <input type="checkbox"/> No If no, please provide rationale as to why this Health PEI Protocol is still required to be site-specific and not provincial.
Nature of revisions: <input type="checkbox"/> Minor <input type="checkbox"/> Major
Summary of required changes/updates:
Do these revisions require: <ul style="list-style-type: none"> • New builds or modifications to current technology (i.e., CIS)? <input type="checkbox"/> Yes <input type="checkbox"/> No • Additional training and/or education for implementers? <input type="checkbox"/> Yes <input type="checkbox"/> No • A communication plan? <input type="checkbox"/> Yes <input type="checkbox"/> No • An education plan? <input type="checkbox"/> Yes <input type="checkbox"/> No
Stakeholders and/or feedback bodies who will be consulted for review:
What mechanisms are used to ensure that this Health PEI Protocol is evidence-based, patient-centered and meets quality indicators?

Complete this form and submit it to the Health PEI Policy Office (healthpeipolicy@ihis.org) for approval to review Health PEI Protocol/Medical Directive. Failure to complete and submit this required documentation for approval to revise Health PEI Protocol/Medical Directive will result in your Health PEI Protocol being returned.
